

Hello all. My name is Nick McGinnis. I absolutely love being here at Ballico School in my hometown (Class of 2007!). I was thrilled to get the opportunity to teach Math in the same classroom where I learned Math as a student. But after that I went to Turlock High School and then eventually got my BA in Mathematics at CSU Stanislaus, and then followed it up with my credential at CSUS. I love teaching 8th grade and with that I get to be involved in almost all aspects of what goes on at Ballico. I've been coaching Boys and Girls Basketball, and Baseball for the past two years here and loved every minute of it. Also I am part of a team that plans the Washington DC trip for 7th and 8th grade students, which is a blast. Then beyond that I take students to compete in the Math Superbowl every year, and help with all the technology that we use in our classrooms such as the 3-D Printers, Cameos, and our new laser engraver.

A little about myself, I am 25 years old and this is my third year teaching. I have a very close family and am constantly spending time with my parents, siblings, grandparents, aunts, uncles, cousins. My family has two dogs we we love and they drive us crazy. In my free time I love to watch and play sports, (Go Yankees, Seahawks and Mavericks). I love going to the movies. I am a bit of a cinephile, just as a reference I see around 50 movies in the theater per year (which as I am writing this seems excessive). I love to read and have plenty of books for students to borrow at any time on my bookshelves in my classroom. I travel a lot when I get the chance. I've been to South Africa, Costa Rica, Mexico, and all over the US.

Please feel free to stop by Room 2 anytime!

My two Dogs Daryl and Dixie
